Enthusiast | Aspiring Project Coordinator  
Greater Bengaluru Area

## Summary

I am proficient in Java and have a solid foundation in project management AI/ML concepts. I am committed to continuous learning and delivering impactful results. I have worked as project lead (team lead) Currently, I am open to opportunities in project management ,ServiceNow development, AI/ML projects and software engineering roles, where I can contribute with a structured approach, strong organizational skills, and a focus on delivering high-quality outcomes.

---

## Experience

### GITAM Deemed University

#### Project Lead

August 2025 - April 2026 (9 months)

Led a team of 4 to successfully develop an AI-powered Smart Livestock Management Dashboard, securing 3rd Place among all Capstone Projects in the college.

The project focused on cattle disease prediction, AI-based price valuation, farmer advisory, and transparent livestock trading using data-driven insights.

Through this journey, I strengthened my skills in Project Management, Team Leadership, Problem Solving, Stakeholder Coordination, and AI/ML solution development while managing the project from planning to final deployment.

### Infosys Springboard

#### Artificial Intelligence Intern

October 2025 - December 2025 (3 months)

Selected as team lead learnt about project management cycle and followed agile methodologies. also worked on technologies like ocr HeartShield: Early Heart Disease Risk Prediction

RineX

Campus Ambassador

December 2022 - January 2023 (2 months)

Bengaluru, Karnataka, India

---
